3. All racers must be wearing long pants.
4. All racers must be wearing a helmet.
5. All units must have kill switches.
6. All lawnmowers must have working brakes.
7. Lawnmowers must be an original lawn cutting mower (no garden tractors) and must be powered by a lawnmower engine.
8. Foot or trigger type throttles are allowed.
9. All blades, belts and mower decks must be removed.
10. All lawnmowers must run on pump fuel; high octane is allowed.
11. Mufflers are optional. If they are removed, they have to be routed under the chassis.
12. All batteries and fuel tanks must be securely fastened to mower chassis.
13. Any modifications made to the engine and/or carburetor must be made with lawnmower parts (with the exception of real axles which are to be a trans-axle or live axle design, chain or belt driven). Front axles may be fabricated or reinforced but have to be mounted in the original location. The front and rear axles may be widened up to 42" outside of the tire. The mower chassis can't be widened, narrowed, lengthened or shortened by any more or less than original manufacturer's dimensional length. Racers can add tubular steel for structural strength. The mower's chassis may be altered only to allow strength of the trans-axle or live axle.
14. Snow blower type tires can only be used on the front of the lawnmower.

18. All lawnmowers must be issued a number.
19. Only 3 minutes will be allowed to repair a lawnmower in the event of a break down at the starting line. After the 3-minute time allowance, the race will start without the racer.
20. No speeding off of the track; if driving too fast, take an extra lap to slow the mower down.
21. Each driver is permitted one helper.
22. There will be no refunds.
